

# Petite Scrapbook

Design by Gina Tepper

A small scrapbook makes a perfect gift for anyone. You can capture memories shared with friends or add sentimental photos for family member. It can also be used as a brag book to show off photos of your children or grandchildren.

Difficulty – Medium

### Materials

- Cardstock – cut from reused shirt box or similar weight cardboard (for the front and back cover)
- 1 sheet 12"x12" double-sided floral scrapbooking paper (for inside and outside covers)
- 4 pieces of coordinating styles of double-sided scrapbooking paper – cardstock weight (for the pages)
- Metal eyelets
- Hole punch
- 5/8 inch wide pink ribbon (to wrap around the front cover)
- 1/4 inch wide pink ribbon (to make the flower)
- 1/8 inch wide pink ribbon (for binding)
- 3/8 inch wide light pink ribbon (for the front cover)
- Flower rhinestones (for the center of the flower)
- **Scotch® Precision Scissors** (for cutting ribbon)
- **Scotch® Clear Glue Stick** (for attaching scrapbooking paper)
- **Scotch® Clear Photo Corners** (for attaching picture)
- **Scotch® Clear Glue with 2-Way Applicator** (for gluing ribbon)
- **Scotch® Quick-Dry Adhesive** (for attaching accents)

### Instructions

1. Cut two pieces of cardstock from an old shirt box 5 inches by 6 inches wide. Fold one side of each piece of the short end on the cardstock over ½ inch to create some flexibility at the binding.
2. Using **Scotch® Precision Scissors**, cut a piece of scrapbooking paper slightly larger than the cardstock.

3. Apply **Scotch® Clear Glue Stick** to one side of the cardstock and attach, centering on the wrong side of the scrapbooking paper.
4. Trim the corners off at an angle, making sure not to cut the cardstock.

5. Apply glue stick to the scrapbooking paper edges and fold down. Repeat on these steps on back cover.

6. Cut a piece of the reversible side of the scrapbooking paper slightly smaller than the cardstock. Apply glue stick to wrong side of the scrapbooking paper and attach, centering it on the inside of the cover to give it a finished look. Repeat on the back cover.

7. Using **Scotch® Precision Scissors**, cut pieces of coordinating scrapbooking paper slightly smaller than the covers of the book for the inside pages.

- Punch holes on the front and back cover of the binding and attach eyelets to stabilize.

- Line up the inside pages with the holes on the front and back cover and mark the location. Punch holes with a hole punch.
- Use **Scotch® Clear Photo Corners**, attach the photos to the pages.

- To make the bow, cut four 3-1/2 inch pieces of 1/4 inch pink ribbon. Fold the ends to middle, overlapping about 1/4 inch, and glue with **Scotch® Quick-Dry Adhesive** to form a loop.
- Apply glue to the inside center to create two loops.

13. Glue the four of the ribbon loops together with **Scotch® Quick-Dry Adhesive**, one at a time onto the center of each other to form a flower.

14. Using **Scotch® Precision Scissors**, cut a piece of the 5/8 inch pink ribbon and the 3/8 inch light pink ribbon the length to wrap around the entire front cover of the scrapbook. Using the precision tip of **Scotch® Clear Glue with 2-Way Applicator**, attach the 5/8 wide ribbon to the front cover about 1-1/2 inch from the left side of the binding edge. Layer the light pink ribbon over the dark pink ribbon, overlapping the ends on the back of the cover.
15. Using **Scotch® Quick-Dry Adhesive**, attach the rhinestones to the center of the flower and glue the flower to the ribbon band on the front cover. Let dry.

16. Feed the 1/8 inch ribbon through the holes like a shoe lace and tie at the top to create the binding. Trim to matching lengths to finish your petite scrapbook.
